K-8 Schools:
Select the period the survey forms are collected. Check one period for elementary and one for secondary. Click **Submit**.

Date is preset. Do not change.

Submit

(Your meeting options may look different.)

5. After clicking **Submit** in Step 4, a dialog window opens.

Verify or Click **Open with**.

Opening FederalSurveyFormReport.csv

You have chosen to open:

FederalSurveyFormReport.csv
 which is: Microsoft Excel Comma Separated Values File
 from: <https://powerschooltrngol.sandi.net>

What should Firefox do with this file?

Open with Microsoft Excel (default)

Save File

Do this automatically for files like this from now on.

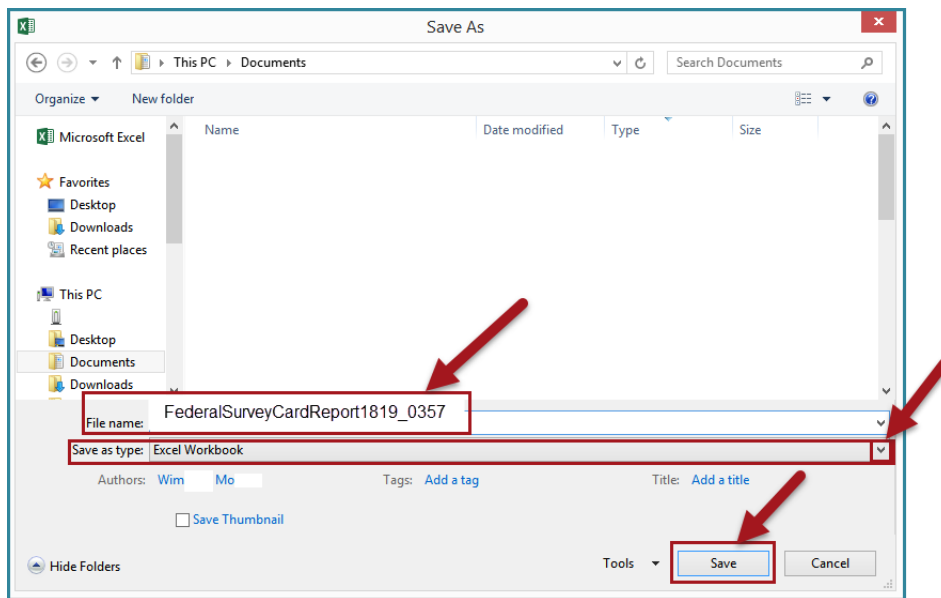

(Your options may look different)

4. Click **OK**. The Excel file opens.
5. In Excel, click **File**, then click **Save As**.

(Your options may look different)

6. Browse to the location in which you want to store the file. Some users like to first create a new folder, titled **Federal Survey Forms** for example, to store this report and other related files. Name the file to **FedSurveyFormReport1819_cost center.xls** where “cost center” is your 2018-2019 cost center. For example, if your cost center is 0357, your file should be titled, “**FedSurveyFormReport1819_0357**”. Select **Excel Workbook** in the ‘Save as type’ field.

7. Click **Save**.

8. If this prompt appears, click **Open**.

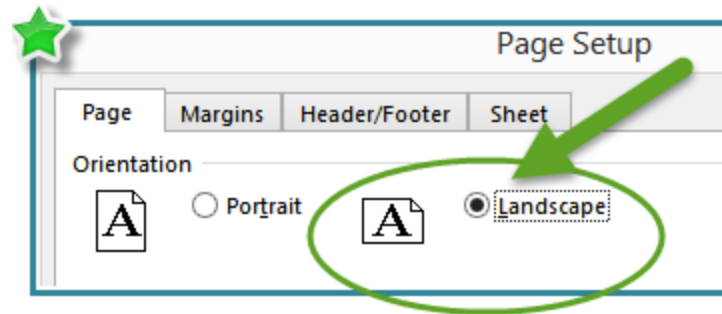

9. If any cells contain “#####”, you must expand the column width to see the data.

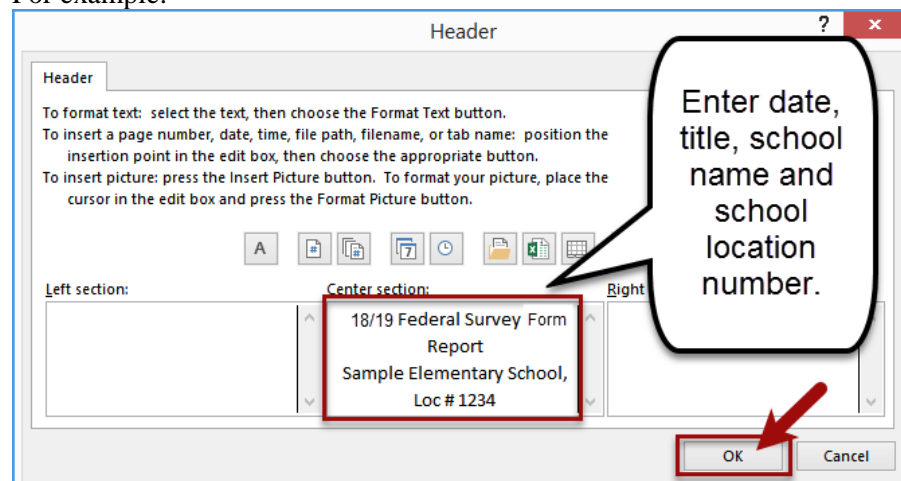

Format the Federal Survey Form Report in Excel

Header/Footer and Page Set Up of the Report

1. Open your saved Excel report for the Federal Survey Form.
Click the **Page Layout** tab > **Margins** > **Custom Margins** (the words at the bottom, *not* the icon.).
 - a. On the **Page** tab, click the **Landscape** radio button.

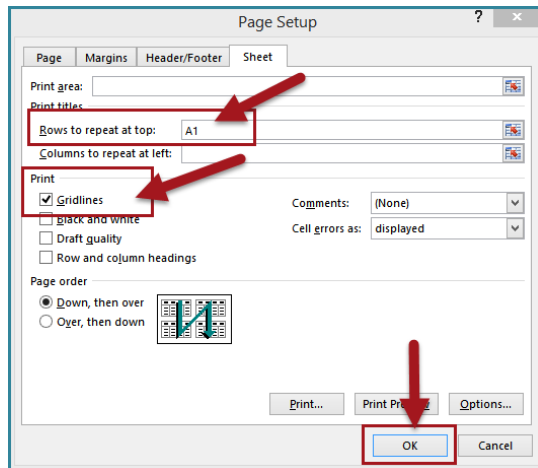

- b. On the **Margins** tab, set **Left** and **Right** to **.25**.
Top to **1**
Bottom to **.5**
Header to **.5**
Footer to **.25**
 - c. On the **Header/Footer** tab, click **Custom Header**
 - d. In the **Center** section, enter the following: **18/19 Federal Survey Form Report**. Press the **Enter** key on your keyboard, and then enter your School name and your location #.
For example:

- e. Click **OK**. (This window closes and returns to the **Header/Footer** tab on the **Page Setup** dialog box.)
 - f. Click **Custom Footer** (the cursor will be in the **Left** section)

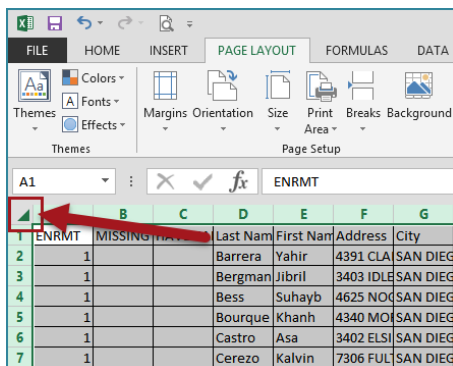

- g. Click the **Insert File Path** icon .
(&[Path]&[File] appears.
In the printed document, this will show the file path and name.)
- h. Click in the **Right** section.
- i. Click the **Insert Page Number** icon , type the word **of**, press the space bar, and then click the **Insert # of Pages** icon . (This will put page numbers (e.g., **1 of 16**) on your report.)
- j. Click **OK**.
- k. Click the **Sheet** tab:
- l. In **Rows to Repeat at Top**, enter **A1**. (This will put your column headers on all pages.)
- m. Check **Gridlines** to include gridlines in the spreadsheet.
- n. Click **OK**.

Your window should look like this:

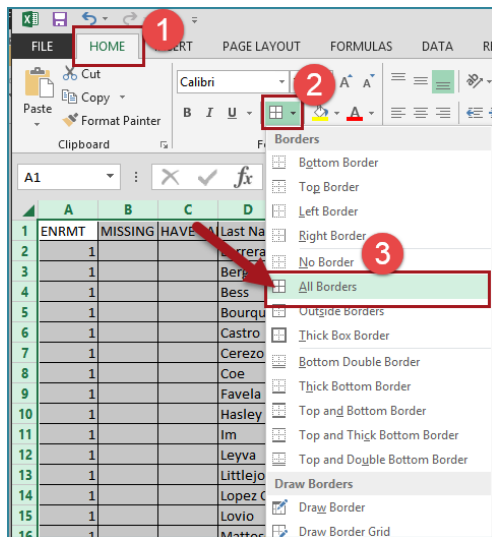

Required: Select All Borders for Gridlines in Report

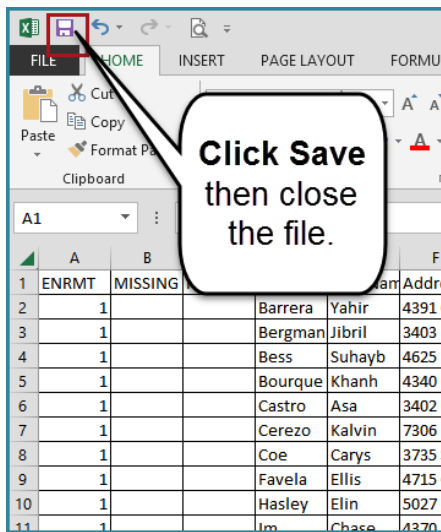

1. Click the **triangle** to the left of the A cell. The entire Excel report will turn gray.

- Then, in the **Home** tab, click the **Borders** icon and select **All Borders** from the menu. This will put gridlines throughout your report including the **Missing Form** column.

- Click **Save** and close the file until you need to use it when students turn in their forms.

Reminder! The Federal Survey Form Report is created to **automatically tally** your survey form counts as you enter them in the **Have Form** and **Missing Form** cells. You will see the sum at the bottom of each column.

Run Labels for the Federal Survey Forms

Labels must be attached to the survey forms before they are sent in to the Impact Aid Office. You must run the labels from your **PowerSchool Federal Survey Report**. Run the labels when you prepare for the survey, and set them aside. You may wait until forms are completed to attach the labels since you may not know what language form each child needs. **Please affix the label in the blank_upper_right area of the survey forms without covering any of the print.**

These labels assist the central office to identify the students since some handwriting is unreadable and we are dealing with a high volume of forms. Also, the name written on the forms is not always the registered name, which makes it hard to find in the student information system.

Create Labels Using Mail Merge in Word

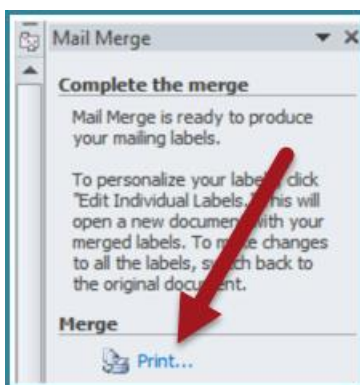

1. Launch **Microsoft Word**.
2. Click the **Mailings** tab
3. Click **Start Mail Merge** > Select **Step by Step Mail Merge Wizard ...**
The **Mail Merge** task pane opens on the right side of the document:
4. Under **Select document type**, click the **Labels** radio button
5. Under **Step 1 of 6** at the bottom of the page, click **Next: Starting document**.
6. Under **Change document layout**, click **Label options** and select the types of labels you are going to print. (Typically **Avery 5167**, but the type of labels you have could be different.)
7. Click **OK**.
8. Under **Step 2 of 6**, click **Next: Select recipients**.
9. Under **Select recipients**, confirm that the **Use an existing list radio button is selected**, and under **Use an existing list**, click **Browse...**
10. When the browse window opens, navigate to your desktop, and **select** the Excel Spreadsheet that you saved earlier, **“FedSurveyFormsXX_cost center of your site.xls”**
11. Click **OK**

The following (or similar) window opens:

(If more than one row is listed in the Select Table window, select the top option)

12. Confirm that **First row of data contains column headers** is checked.
13. Click **OK**.
The **Mail Merge Recipients** window opens:
14. Click **OK**.
15. You should now see the label sheet formatted with the words **Next Record** appearing in each label.
16. At the bottom right, under Step 3 of 6, click **Next: Arrange your labels**.
17. Under **Arrange your labels**, click **More items ...**.
The **Insert Merge Field** window opens. The fields listed match the fields found in your Excel spreadsheet.
18. **Insert** the **desired fields** from the list.
You *must* include **Last Name**, **First Name**, and **Student Ident**.
(You could also add Teacher Name or Classroom Number if you will be distributing forms by teacher or classroom.)
19. Close the **Insert Merge Field** window.
20. Edit the label information:
You can add spaces (or commas and spaces) between **each field**, or hit the **Enter** key on your keyboard to add a new line after any field.
21. **Select All** and **change the font size** to have the text better fit your label. (Most users choose 8 or 9 point).
22. **Click the Update all labels** button.
(This changes all the labels to match the first one you formatted.)
23. Under Step 4 of 6, click **Next: Preview your labels**.
24. Under Step 5 of 6, click **Next: Complete the merge**.
25. **IMPORTANT:** To print *all* labels, click **Print...** in the **Mail Merge** box on the right side of the screen.

(If you were to choose **Print** from the **File** menu, **only** the first page of labels would print.)

Track Survey Form Collection Using Report and Labels

As forms are turned in by your teachers:

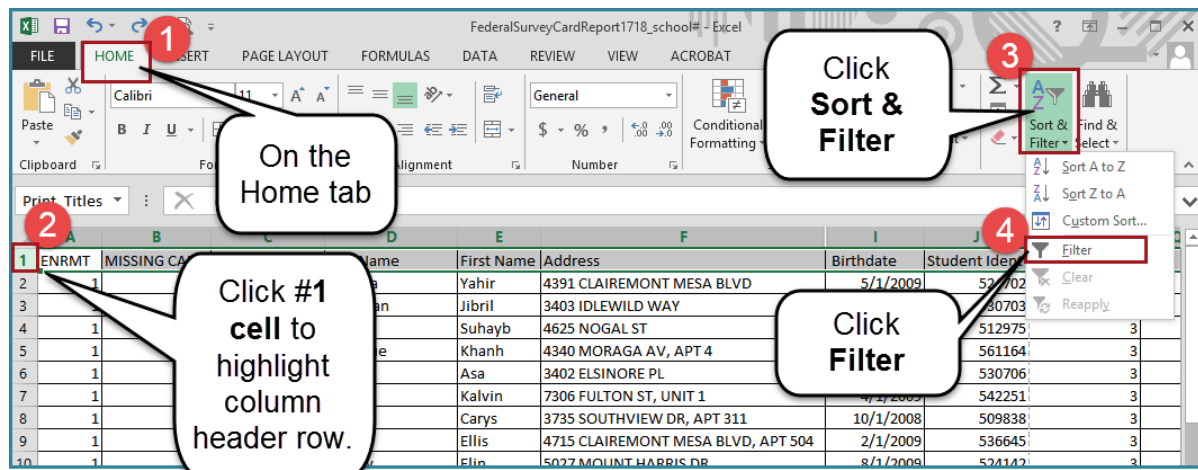

1. Affix the corresponding label in the blank upper right area of the survey form without covering any of the print.
2. Open your Excel Federal Survey Form Report and Type the numeral **1** in the **HAVE FORM** column for each student with a completed form. If you have duplicate forms for a student, staple these together and count as one.
3. If the student does not have a form, enter the numeral **1** in the **MISSING FORM** column.

Note any student name changes on the form and put the form in alphabetical order according to your list. For example, if student name “David Smith” is on your report and the label, however “David Jones” is now written on the form, due to name change, please highlight “David Smith” on your report and write “David Jones” next to the name on the report. On the form, write “David Jones” above the name on label. You can file it by Smith for comparison purposes to balance your forms to your list.

Add Sort & Filter Function

While recording your form collection, you may sort the list by teacher, classroom number, or student ID number. It is suggested to keep your list in classroom or teacher order until the end of your survey form collection.

1. To apply the Sort & Filter:

The screenshot shows an Excel spreadsheet with the following data:

	ENRMT	MISSING CA	Name	First Name	Address	Birthdate	Student Id
1				Yahir	4391 CLAIREMONT MESA BLVD	5/1/2009	527702
2	1			Jibril	3403 IDLEWILD WAY		520703
3				Suhayb	4625 NOGAL ST		512975
4	1			Khanh	4340 MORAGA AV, APT 4		561164
5	1			Asa	3402 ELSINORE PL		530706
6	1			Kalvin	7306 FULTON ST, UNIT 1		542251

8	1			Ellis	4715 CLAIREMONT MESA BLVD, APT 504	2/1/2009	536645
9	1			Elip	5027 MOUNT HARRIS DR	8/1/2009	524142
10	1						

To use the filter, click on the dropdown arrow in the column title you wish to work with. Make the selections you wish to display by selecting or deselecting. Click OK.

Reminder! The Federal Survey Form Report is created to automatically tally your survey form counts as you enter them in the **Have Form** and **Missing Form** cells. You will see the sum at the bottom of each column. Please confirm the totals match your form collection count. If not, check to be sure the formulas are still calculating. If you have any problems, please call for assistance before submitting the final report to the Impact Aid Office.

Finalize the Report to Submit

Count and Alphabetize Forms

At the end of the collection,

- You must alphabetize all of your forms in complete alphabetical order.
- Count all of your forms. Your total on your list should match the number of forms collected. If it doesn't, go through the forms, comparing them to the list until you are balanced to your list.

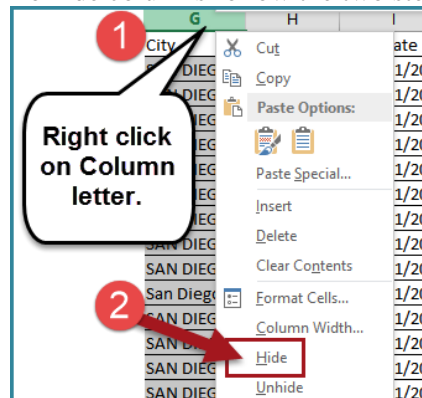

Required Report Columns List

1. Your final report *must ONLY* include the following columns:

- **ENRMT**
- **MISSING FORM**
- **HAVE FORM**
- **Last Name**
- **First Name**
- **Address**
- **Birthdate**
- **STUDENT Ident**
- **Grade Number**

- a. Hide or Remove the columns, **City, Zip, Teacher, Room #, Period, Course Code** and **Course Description** columns when actually submitting the report. (This will reduce the number of pages of your report)

To hide columns follow the two steps below:

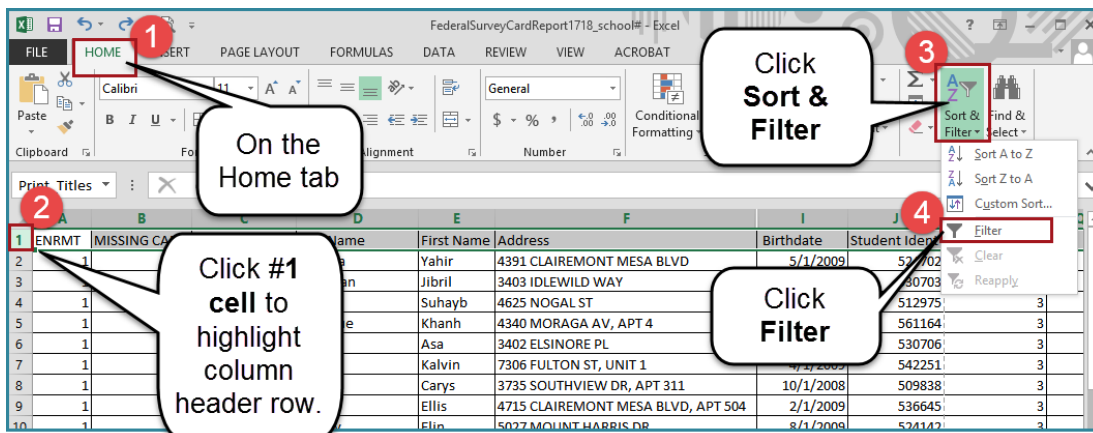

- b. Click **View** tab and select **Page Break Preview**.
- c. Move the blue lines to include the 9 required columns (see list in #1)

Use Sort & Filter Function to Sort Data by Student Last Name

★ ***IMPORTANT!** Your final report must be sorted by student last name, for the entire school before submitting to the Impact Aid Office!*

If you have not added the filter function, follow the steps below:

On the Home tab

Click #1 cell to highlight column header row.

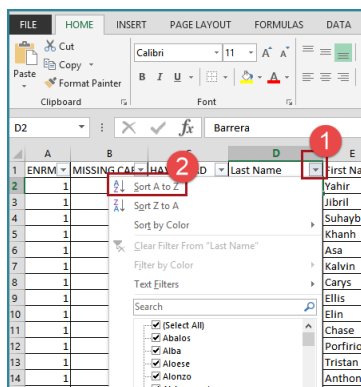

Click Sort & Filter

Click Filter

ENRMT	MISSING CA	Name	First Name	Address	Birthdate	Student Ident
1	1	Yahir	Yahir	4391 CLAIREMONT MESA BLVD	5/1/2009	507702

Additional Report to Submit: Special Education – SAI Services

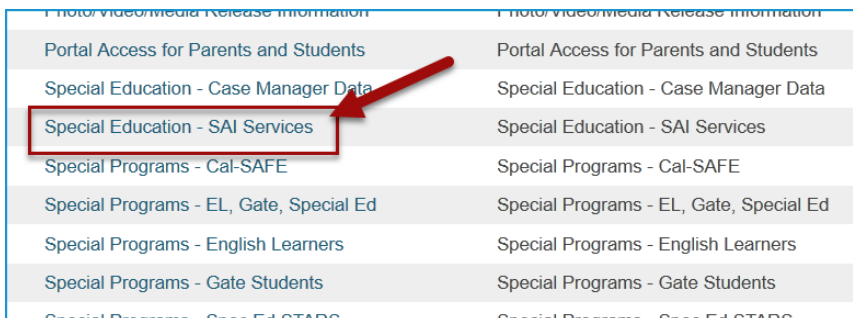

Run the Special Education-SAI Services report in PowerSchool. You will print the report and attach your Principal’s Certifications. This report needs to be included in your submitted documents to the Impact Aid Office.

1. From the Start Page in PowerSchool, click **System Reports**.
2. Click **sqlReports4** tab.
3. Expand **Enrollment** reports.

The screenshot shows the PowerSchool interface. In the top left, the 'System Reports' link in the 'Reports' section is highlighted with a red box and a circled '1'. In the top right, the 'sqlReports 4' tab is highlighted with a red box and a circled '2'. In the main report list, the 'Enrollment' category is expanded, and the 'Enrollment' link is highlighted with a red box and a circled '3'.

4. Scroll down the list and click **Special Education-SAI Services** report.

The screenshot shows a list of reports. The 'Special Education - SAI Services' report is highlighted with a red box, and a red arrow points to it from the left.
